Title: NEW 103 KEY TELEPHONE SYSTEM - HOWDY HOME TELEPHONE .

Abstract: Customer demands for better design **intercom box connection** and compact **connector** have been increasing. In response to these demands, a new 103 key **telephone system**, named 'Howdy Home **telephone ,**' which can be connected to up to three extension **telephone sets** and one intercom box, has been developed, thus reducing transmission facilities to a single central office line. This system is regarded as the successor to the 103 key **telephone system**, 'Howdy **Telephone F,**' and the transfer unit connected to a **telephone set**, 'New Party line equipment,' which has been used widely as key **telephone system** for domestic use. The system incorporates new service features by utilizing microprocessor technology.

Let Windows answer the phone -- Voice-enabled modems, TAPI, and SVD

April 3, 2003

bode powerful telephony

Simon, Barry

PC Magazine , October 22, 1996 , v15 n18 p241-243, 3 Page(s)

ISSN: 0888-8507

Let Windows answer the phone -- Voice-enabled modems, TAPI, and SVD
bode powerful telephony

PC TECH/INSIDE WINDOWS 95 column considers such **telephony** technology as hardware features and Windows 95 APIs. States that voice-enabled modems offer one or more of: an audio **telephony** device which dials and answers the **phone** without initiating or attempting to initiate a data **connection**; a **speakerphone**; **telephone** answering device; caller ID; incoming call auto-detect; and simultaneous voice/data. Explains that underlying Windows' **telephony** capabilities is the **Telephony** Application Programming Interface (TAPI), which manipulates the **phone** through a set of service providers. Notes that a program can interact with the TAPI call manager either by passing along a **telephone** number which the call manager can call, or by asking the call manager for your local **phone** number. Attention is given to the ability of voice-enabled modems to talk and send binary data during a single **phone** call. Includes three screen displays, one sidebar, and one diagram. (jo)

...a wide range of non-market activities. Distance career counselors can use a variety of **communication** technologies to deliver programs, such as audio-teleconferencing, which is available in any place with regular **phone** service. Video-cassette players may also be used and can help parents work with their...

...Pelton (1991) emphasized the need for sensitivity to geographic and cultural differences to avoid using **communication** technologies for "mindless megatraining" (p. 5). In distance career counseling, four factors must be considered...

...practices in many rural communities make it improper to use tactics such as follow-up **telephone** calls for making oneself more visible. However, there are differences between rural communities in terms...

...the client finds meaningful.

DEVELOPING DISTANCE CAREER PROGRAMS

Distance career counselors use a variety of **communication** technologies to deliver programs. Each technology has strengths and weaknesses and the choice depends on...

...has been shipped to host communities before the program begins. Any facility that has regular **telephone** service is viable: hospitals, schools, and community organization offices. Each site has a **microphone** and **speaker box** which are **linked** to other sites, allowing participants to speak and listen to each other. The system ensures...local on-site coordinators. Local knowledge can help avoid problems.

CONCLUSION

Society's ability to **communicate** rapidly and cheaply over long distances is changing the way institutions function. Career counselors can...

...realistic assessment of the effort required, give adequate support throughout the process, and establish regular **communications** to monitor progress, address problems, and develop mutual feelings of trust and inclusion.

The experience of the Centre for the Development of Distance Career Counselling demonstrates the effectiveness of using **communications** technologies to help people in remote communities explore alternatives and manage their careers. Counselors have...
